

Permitindo autenticação no NPS auth users de um determinado grupo

No Nps adicione no network polices, crie uma nova policy e adicione o grupo pedido:

Specify Access Permission

Configure whether you want to grant network access or deny network access if the connection request matches this policy.

☒ Access granted

Grant access if client connection attempts match the conditions of this policy.

☐ Access denied

Deny access if client connection attempts match the conditions of this policy.

☐ Access is determined by User Dial-in properties (which override NPS policy)

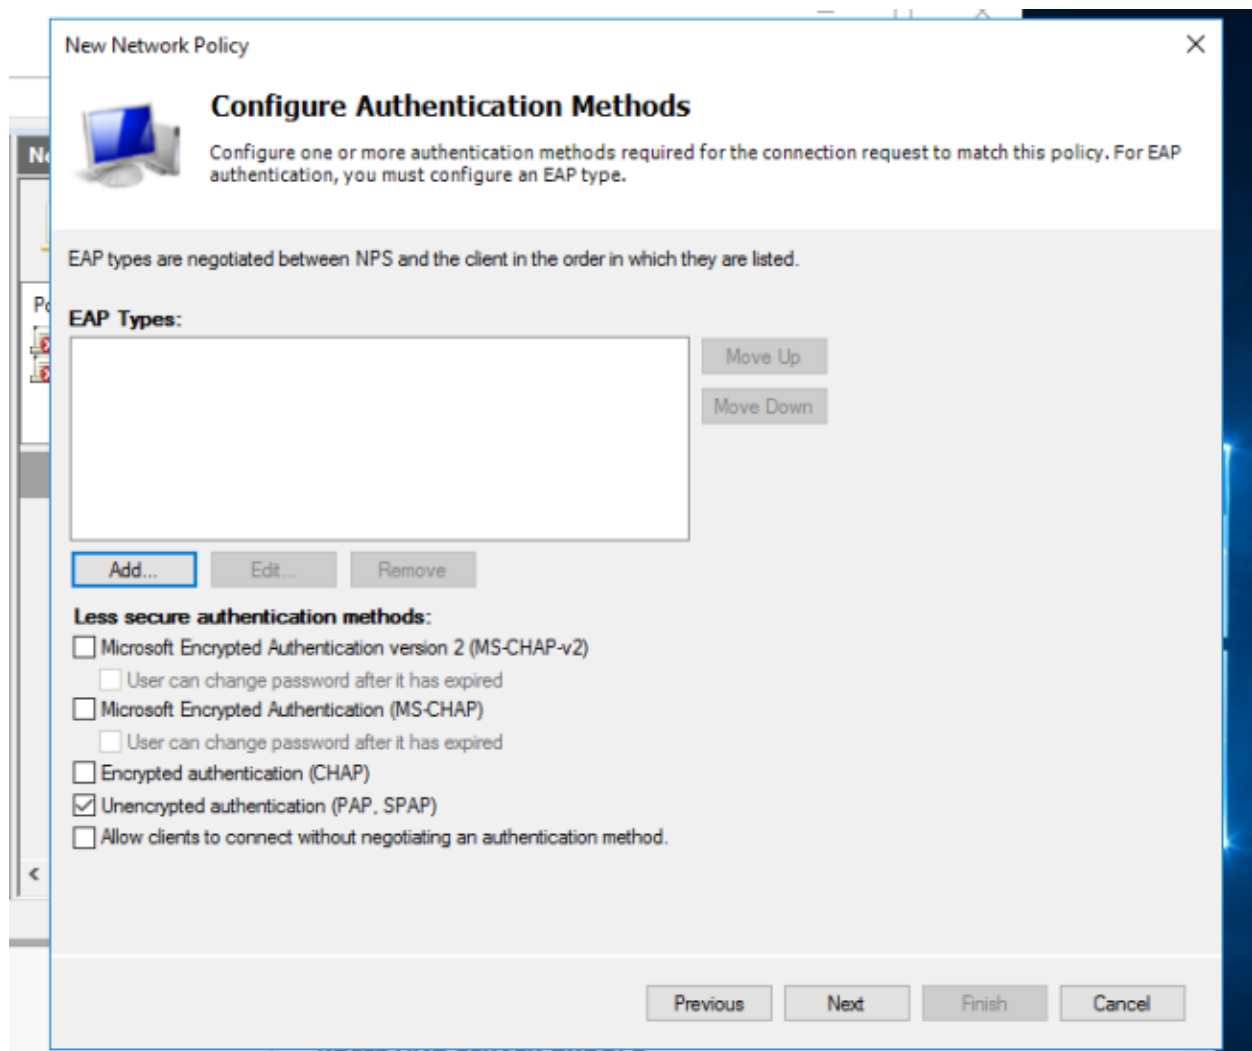

Grant or deny access according to user dial-in properties if client connection attempts match the conditions of this policy.
